

LCC AGM 2025

Proposed Motion 2 Shared / Dockless Bike Hire

Proposed by Chris Brown

LCC's Campaigns & Active Membership sub-committee support this motion.

“Dockless hire bikes are increasing London’s cycling mode share and broadening the demographics of people cycling. However, when poorly implemented, they can result in negative impacts, particularly for people walking, wheeling and cycling.

“LCC commits to working with stakeholders to address negative impacts of dockless hire by advocating for measures such as appropriate rollout of dockless parking and adherence, better rider behaviour, and a London-wide approach to contracts.”
